This application is the national phase of the International Application No. PCT/EP03/00429, which was filed on January 17, 2003 and claims priority to German Application No. 102 02 072.8, filed on January 18, 2002.

U.S. Patent No. 5,506,011, German Patent No. 4445193, European Patent Application No. 1059162, and Swiss Patent Application No. 669561 were cited in a German Office Action, issued on August 27, 2002 in the corresponding German Application No. 102 02 072.8. A copy of the German Office Action is enclosed herewith.

All of the other references listed on Form PTO/SB/08A were cited in the International Search Report (ISR), dated November 17, 2003, or in the International Preliminary Examination Report (IPER), dated July 8, 2004 in the underlying PCT Application and are relevant for the reasons given therein. Copies of the ISR and IPER are enclosed herewith.

An English language abstract is provided for each of the Japanese and German references. U.K. Patent Application No. 2168925 is an English language equivalent to the Swiss Patent Application No. 669561 that was cited in the German Office Action.

Since this Information Disclosure Statement is being submitted before the mailing date of a first Office Action on the merits, it is timely under 37 C.F.R. §1.97(b)(3) and no fee is required. The Commissioner of Patents and Trademarks is hereby authorized to charge any additional fees which may be required to Deposit Account No. 23-0650. One (1) original and two (2) copies of this Information Disclosure Statement are enclosed.

Respectfully submitted,
